# Pitcher the difference

Pitcher Partners has the resources and depth of expertise of a major firm, but with a smaller firm feel. We give our clients the highest level of personal service and attention. That's the difference.

**Pitcher Partners is an association of accounting and business advisory firms located in Melbourne, Sydney, Perth, Adelaide, Brisbane and Newcastle. We have a strong reputation for providing personal service and quality commercial advice to our clients across a broad range of industries.**

## Our Clients

We specialise in providing services to family controlled, privately owned and small public businesses as well as high net worth individuals, the public sector and Not for Profit organisations. Our clients require high technical standards, matched with a personal understanding and involvement in their affairs.

## Pitcher Partners services

### Audit and Assurance

The cost and effort of compliance with financial regulations is an increasing burden on business. We believe audit and assurance should add value to the organisation by identifying opportunities as well as risks. Furthermore, we understand the importance of working closely with Boards of Directors and Audit Committees to resolve audit issues within the agreed timeframe and work to deliver a truly value added service.

### Business Advisory

Through close and active involvement in our clients' business, Pitcher Partners provides informed, practical assistance to make the most of opportunities and emerging issues. We ensure the advice we give is practical and takes into account the full set of circumstances facing the company.

### Business Consulting

Our consultants work collaboratively with senior management and stakeholders to deliver measurable outcomes. We use approaches and methodologies in the conduct of assignments that are founded and renewed on leading edge thinking, whilst maintaining commercial relevance and practicality. Areas of expertise include strategic business planning, feasibility studies, viability studies, contract negotiations, financial analysis and modelling, and organisational reviews.

### Business Recovery and Insolvency

Even the healthiest business will come into contact with an insolvency situation at some time. It could be one of your suppliers, or perhaps a problem debtor. Pitcher Partners has developed a reputation for providing organisations with a range of Business Recovery and Insolvency services that are successful in achieving maximum recovery levels.

### Corporate Finance

Corporate transactions are not an end in themselves, but part of the progress towards a goal – be it growth, higher profitability, improved market share or competitive advantage. Pitcher Partners has extensive experience providing independent advice on investments and business transactions. We work quickly, providing excellent response and value for money.

### Investment Advisory

We provide our clients with rigorously researched and customised investment advice suitable to the needs, objectives and risk profiles of each individual family, fund or Not for Profit organisation. At Pitcher Partners we offer clients fee only service that is truly independent.

### IT Consulting

With an in-depth understanding of business, we are able to provide independent advice and create tailored IT solutions that provide real benefits. We have experience in developing unique solutions, running complex projects and delivering value to clients.

### Private Clients

We have an in-depth understanding of the profit drivers and key performance indicators for private businesses as well as the commercial and business imperatives underpinning their success. We have a full view of our client's financial situation including both business and personal affairs as well as an understanding of the ramifications of legislative changes. Our complete service approach means we can provide business related advice to take account of personal long-term goals as well.

### Risk Services

We are able to undertake a broad range of risk management services to support our audit efforts including enterprise risk management, internal audit, disaster recovery and business continuity planning, advanced data mining and specialised information technology security assurance.

### Superannuation

We also have extensive experience in the superannuation industry, working with trustees, members and employers. Our experience covers all segments of the industry: large fund compliance, self-managed funds, administration, employer obligations, member retirement planning and estate planning.

### Taxation

Pitcher Partners is one of the most experienced taxation advisory team in Australia outside the Big 4 accounting firms. We have specialists in all relevant areas of taxation law supported by a large team of experienced professionals who can manage any issue regardless of size or complexity.
